

Are you a Person Living with Dementia or Care Partner in Canada?

Your perspective will help shape Canada's dementia data system and help promote quality of life for those with dementia and care partners (family/friends).

Participation would involve one 60-90 minute virtual focus group with 4-6 other people (online or by phone).

In appreciation for your time, you will receive a \$25 gift card.

We encourage participation of people from diverse backgrounds. This includes people who speak languages other than English or French, people of different cultural backgrounds, newcomers to Canada, people who identify as LGBTQI2S+, and people who live in rural or remote areas.

Note: Focus groups will be offered in different languages
